

HNC700PT

**Powerful Management & Control
Software Application
Motion Detection and Microphone
Two Year Warranty**

PACKAGE CONTENTS:

- ♦ One HNC700PT Remote-Motion CCD Network Camera
- ♦ One Installation CD-ROM
- ♦ One Quick Installation Guide
- ♦ One DC Power Adapter
- ♦ One RJ-45 Ethernet Cable
- ♦ One IR Remote Controller

Monitor and Secure Your Home or Office from Anywhere in the World !

The Hawking HNC700PT features a CCD image sensor and MPEG4 compression to provide a superior quality picture and streaming video at up to 30 frames per second. Remote-motion technology can be utilized via web interface or remote control, and allows the camera to pan across 270 degrees, as well as tilt through 90 degrees. Users can scan a desired area from the safety and comfort of a remote location. Built-in motion detection adds an extra measure of security. Included with the camera is a powerful management and control software application that allows the user to playback video, record directly to the hard drive, operate remote-motion control, and trigger automatic recording by motion detection. A built-in microphone also enables audio monitoring.

The new network camera features a built-in web server and utilizes its own IP address, thereby eliminating the need to be attached to a PC. The cameras connect directly to an existing Ethernet network, allowing users to view live video both from within their local area network (LAN) or from outside the network via the Internet. Versatile and full-featured, the HNC700PT offers a broad array of applications and can be used to monitor various critical locations such as homes, offices, banks, schools, childcare centers, hospitals, and other industrial and public areas.

CAREFREE MULTIMEDIA

HNC700PT

Alarm I/O & Motion Detection
Built-in Web Server
Remote Controller included
Two Year Warranty

SPECIFICATIONS:

Remote Management Network

- ◆ Configuration and system log accessed via remote web browser and FTP application
- ◆ Protocol
UPnP, TCP/IP, HTTP, SMTP, FTP, Telnet, NTP, DNS, and DHCP
- ◆ Ethernet
10BaseT or 100BaseT Fast Ethernet

Video

- ◆ Algorithm supported
- ◆ MPEG-4 for streaming video
- ◆ JPEG for still image
- ◆ Features:
 - Adjustable image size, quality and bit-rate
 - Time stamp and text caption
 - Three configuration motion detection windows
 - Flip & mirror
 - Video output connector

Video Resolution

- ◆ NTSC: Up to 30fps at 176x144
Up to 30fps at 352x288
- ◆ PAL: Up to 25fps at 176x144
Up to 25fps at 352x288

Audio

- ◆ 24kbps
- ◆ Built-in microphone
- ◆ External microphone connector
- ◆ Audio output connector

Pan/Tilt

- ◆ Pan: range +/- 135 degrees, 10~50 degrees/sec
- ◆ Tilt: range +90 ~ -45 degrees, 7~25 degrees/sec
- ◆ Auto pan mode
- ◆ Auto patrol mode

Security

- ◆ Three levels of user privilege
- ◆ ID/Password authentication

READY, NETWORK & GO!

It's easy to install, it's easy to use!

Step 1 - Connect HNC700PT

Connect the HNC700PT to your LAN using a standard RJ-45 (Cat 5) cable.

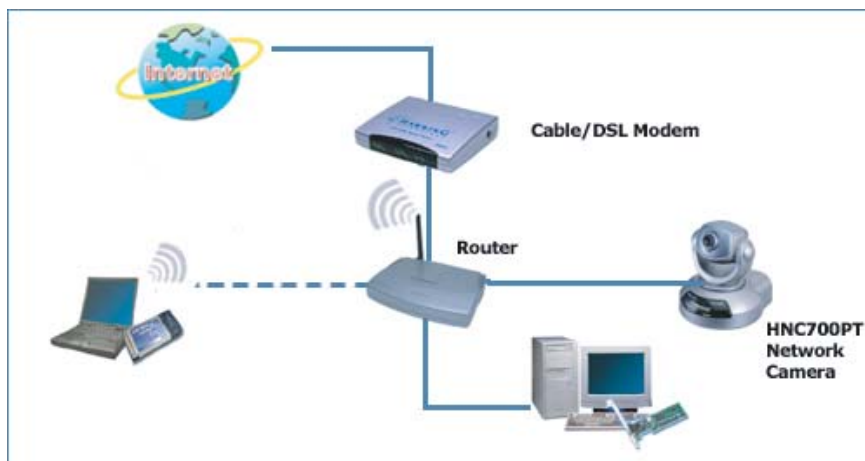

Step 2 - Setup and Installation

Insert the Installation CD and use the Setup Wizard to install the camera.

Step 3 - Configure the HNC700PT

Launch your web browser and type in the camera's IP address. Click on either "ActiveX" or "Java" to start viewing. For custom configuration, click on System Administration. It's that easy!

SETUP DIAGRAM:

Camera Specification

1/4" color CCD image sensor
 512(H) x 492(V) (NTSC) / 512(H) x 582(V) (PAL)
 1 Lux/F2.0
 AGC/AWB
 Electronic Shutter: 1/60 (1/50) to 1/100,000 sec.
 Lens: 4.3mm, F2.0

LED Indicators

System power, microphone, system activity, network link

Sensor and Relay

1 opto-isolated sensor input
 1 alarm relay output

Dimensions: 105mm x 105mm x 110mm (LxWxH)

Weight: 350g

Power: 12V DC, 1.5A external universal power supply

Development Kit: Open ActivX control

EMI Certifications: CE, FCC
